# Chapter 1 Introduction

## What is the CleanTalk plugin?

CleanTalk Anti Spam (<http://cleantalk.org/?pid=411215>) is a third party service which checks users email and IP against blacklists. The Sitelok CleanTalk plugin connects to their API service to check users on registration. It can also optionally check messages sent via the contact form or messaging plugin.

Other features are available from CleanTalk including the ability to block access from specific countries, IP's and email domains etc.

At the time of writing Cleantalk have a low charge of around \$8 per year.

# Chapter 2 Installation

## Installing for the first time or upgrading

- 1) Extract the contents of the zip file to your PC.
- 2) Upload the plugin\_cleantalk folder to your existing Sitelok slpw folder using FTP. There are no special permissions required on most servers.
- 3) Login to the Sitelok control panel.
- 4) Open the following URL in the browser

[https://www.yoursite.com/slpw/plugin\\_cleantalk/install.php](https://www.yoursite.com/slpw/plugin_cleantalk/install.php)

which will start the installation process. If all is well you will be taken to the plugin preferences page where you will see the plugin listed.

If you have any problems with installation please let us know so that we can help you.

## Setting up the plugin

You can access the plugin configuration by selecting **CleanTalk** from the **Plugins** menu.

### CleanTalk API key

First of all you will need to register for an account with CleanTalk by click the blue link. Once you have registered, login and retrieve your Database API key. Normally CleanTalk will provide a trial period enabling you to test the service. You should pay for their Database API service before the trial finishes. Enter the API key in the **CleanTalk API key** field.

The screenshot shows a web interface for CleanTalk. At the top left is the CleanTalk logo. Below it is a section titled "CleanTalk account". Underneath, there is a label "CleanTalk API key" followed by a text input field containing the value "hecgwi4fg3dgi". To the right of the input field is a blue link that says "Signup to get your API Key".

## Registration forms

Registration forms

**Check user registrations**

**Message for blocked users**

Leave empty to show explanation message from CleanTalk

**Log blocked registrations**

### Check user registrations

To enable CleanTalk to verify new users when they register via a registration form check the **Check user registrations** checkbox.

### Message for blocked users

You can enter the message that is displayed to the user if they are rejected by CleanTalk. If you leave the field empty the message returned by CleanTalk will be shown instead.

### Log blocked registrations

If you check this box then users blocked will be logged in the Sitelok log.

## Disabling the Plugin

To disable the CleanTalk plugin select **Plugin Preferences** in the **Plugin** menu option of Sitelok. Uncheck the enable box for the plugin and click the **Save** button.

You can enable it again in the same way.

## Uninstalling the plugin

To permanently remove the plugin and its settings follow these steps.

- 1) Disable the plugin as above.
- 2) Click the delete icon next the plugin in the disabled plugins section.
- 3) Confirm the action in the alert box.

If the plugin is uninstalled successfully you will be returned to the plugin preferences page.

## Chapter 3 Support

Hopefully if you have followed this manual carefully everything will be working fine. However sometimes things don't go quite so smoothly so if you have any questions or problems then please check the FAQ on the support page or email us.
